Mrs. Campbell also took a larger number of premiums than any one exhibiting preserved fruits, six, at the Leaven-worth Fair.

Mrs. Campbell took a large number of premiums in the same line at the Leavenworth Fair, and is evidently the champion of the State in culinary skill.

There was no jockeying in that race, evidently, The rider must have seen that he was too far ahead of his opponents to make the speed of his horse profitable to his owner, and it was concluded he was unable to restrain him. Exasperated Laborers Attack the Over stern and other Headmen of two Plantations.

NEW YORK, Oct. 13-The Herald Line NEW YORK, Oct. 13—The Herald Linux letter of September 14th gives the annexed details of a Coolie insurrection in the Valley of the Lupe, 150 miles from Linux, on the plantations of Patieilies and Galpon. It has been several months since symptoms of disatisfaction were noted among the laborers, but the overseers and owners, trusting to their authority and power, paid but little attention to the manifestations. owners, trusting to their authority and power, paid but little attention to the manifestations. Unfortunately no precautions were taken against surprise. The Chinese left in tranquility, were able to mature their plans. An agent of Mr. Paticilien had arrived from Liana with a large sum, destined for the payment of the laborers and to purchase cutton from surrounding planters. While this person, with the overseer, physician, and several other employes, were at supper on the night of the 4th, the dinning-room doors were suddenly broken open and a crowd of about 200 Coolies, armed with stakes and every imaginable weapon, burst upon the whites, and in less time than required to marrate the deed the Chinese had murdered all their victims save one, who, being grievously wounded, fell under the table, and was thought dead. After sacking the house, and securing revolvers and rifles, the band of insurgents proceeded to the adjacent hacienda of Galpon, and repeated the same barbarities. Not satisfied with killing the whites they encountered, most revolting atrocities were practiced on their dead bodies; and delicate women and children were subjected to shameful and cruel tortures. The number of Chinese now amounted to 1,100. Their movements appeared to be directed, with some degree of intelligence, by one who rated as chief. They secured all the money and valuables to be found on the estate. A large gain was anticipated in the sacking of the little village of Barranca. Meantime the owner of an estate that lay on the road to the village was notified by a friendly the owner of an estate that lay on the road the owner of an estate that lay on the read to the village was notified by a friendly Coolic of the approach and the designs of the maranders. Hastily placing his wife and family in a chapel belonging to the plantation, he, with another friend, strongly barred the doors and received the advancing column with the fire of their rifles. Here the inhabitants had time to make some preparations for defence. An imprompto breastwork was erected at the entrance, and men were posted behind it to resist the assault. In a short time the Chinese reinforced to the number 2,000, appeared in front and sent their leader to parley with the defenders regarding surrender. Hardly had he opened his mouth when a rifle ball put an end to his existence. The Chinese, goaded to madness, threw themselves upon the barricade. The fight, for a few moments, was hand to hand, and the whites suffered severely under the knives and weapons of the assailants. Soon, however, the power of gunpowder began to had time to make some preparations for de

Great ex itement is manifested over this unhappy event, the number of Chinese throughout the republic being so great as to cause general unessiness and distrust, while planters are perplexed to find laborers for their estates which are left uncultivated, and will in a short time be irretrievably ruined.

Cure of Kidney and Bladder Affection of a Patient Seventy-eight Years of Age .-

Thanks to Mr. Helmbold. GIRARD, PA., March 31, 1860. EDITOR COSMOPOLITE: I desire as an unsolicited ribute to the merits of Helmbold's Buchu, and for the benefit of those similarly afflicted as myself, to trying nearly all the best advertised remedies, in the vain hope of finding relief from aggravated kidney and bladder diseases, from which I have suffered excessively for many years, good fortune finally suggested to be Helmbold's Buchu, which I ommenced using with little faith, and no apparent eneficial results for about a month. At the expiration of that time, however, I thought I comsenced to experience slight relief, which encouriged me to persevere in its use, and now at the expiration of four months, although I am an infirm old man, nearly 78 years of age, and consequently medicines cannot be expected to favorably effect me speakable relief and permanent benefit from Mr. Helmbold's valuable discovery, that I feel I ought

o publicly record the fact, as an acknowledgement o him and a valuable suggestion to the public. Yours respectfully, D. M. LAREN. Mr. Laren refers to the following gentlemen:

BELIEVING THAT THE PRESSURE of
Taxation has at last driven the people to examine the principles upon which they are taxed, and that the further this examination is carried, the deeper will grow the popular conviction that a form of taxation which has entailed widespread distress in nearly every branch of industry must be radically wrong, the American Free Trade League feel that they can do the public no greater service than to formish it with documents, facts, and figures concerning the operation of the tariff. They have, therefore, prepared for grainitions distribution fhe following tracts, which will be sent on receipt of six cents for postage:
